As an outgrowth of the attached exercise, Tom Shoesmith asked that you be ready to lead possible Congressional testimony by the intelligence community on the PRC-Taiwan military balance, presumably based on the closely held DIA study if you agree with it.

I agreed to alert you of this.

Subsequently, Charles DeSaulniers phoned with the same request -- that you be prepared to brief Congressmen on the PRC-Taiwan military balance based on the DIA study.

Both of them apparently anticipated such a need in the aftermath of a ^{Communist} PRC-US issuance, or failure to do so.
